STAT 330	STAT 331	CS 371 or 370	ACTSC 446
ACTSC 372	ACTSC 431	ACTSC 4xx ***	ACTSC 4xx ***
STAT 333	STAT 340	ACTSC 445	CS 476
Non-Math elective	ENGL 378/MTHEL 300	Non-Math elective	Non-Math elective

* MTHEL with >60% is required for admission but AFM 101/102, ECON 101/102 and MTHEL 131 can be moved around.

* Second year Math can be re-arranged as desired.

** Choice is AFM 424 or ACTSC 471/AFM 476. AFM 424 also counts as a non-math course. Taking it means 1 of the non-math electives becomes an "Anything course" and can be math if desired

*** Anything course can be Math or non-math. They can trade places with any course as needed, especially with ACTSC 4xx if an ACTSC course is offered in that term you want to take.

Occasionally mistakes are found on these sheets. Make sure you have the most up to date version, and know that a mistake on this sheet, will not allow you to graduate missing a required course. The undergraduate calendar is the official list of required courses for any program and these sheets are created to help things be easier for you.

Created in Spring 2018 term for 2018/2019 calendars - things might change in the future
