

Crowdmark Timed Assessment Instructions

1. Once the assessment has been distributed, you will receive an email with a link to access the assessment. (Alternatively, you can access the assessment directly from the Crowdmark course homepage)

2. When you click on the assessment, you will see a message describing the amount of time you will have to write the assessment and the due date (the latest you can submit on time).

Quiz

This is a timed assessment

You will have **2 hours** to complete the assessment.
The final due date is Friday July 24, 2020 11:59 PM (Eastern Daylight Time).

You may resubmit your work any number of times until the timer runs out. Make sure you leave yourself enough time before the due date, as the timer will not run past the due date. Resubmissions will not be accepted after the timer runs out. [Click here to learn more about submitting assessments.](#)

[Start the assessment now](#)

3. After you click the **Start the assessment now** button, the timer will start and you can view, download, complete, and submit the assessment. Please note that the assessment questions are not posted on LEARN. You are only able to download the document with the questions from Crowdmark, after you click the button to start. The question document will be located within one (or all) of the questions in pdf format. Click the hyperlinked pdf to download it.

*Uploading the assessment is done the exact same as your regular assignments. The only difference is that you have a time constraint to download, complete and upload your assessment, which starts when you click the **Start the assessment now** button.

Important Notes:

- Once you start your assessment, the timer runs in real time. **If you exit and then re-enter the assessment, you will see the timer has continued to count down.** You cannot pause or restart the timer.
- If you submit an assessment late (after the timer runs out, or after the due date has passed), **a lateness penalty of XXX (Change this to your value) will apply.**
- You cannot **resubmit** work after the timer runs out, or after the deadline has passed. So, if you need to resubmit work for any reason, this needs to be done before the timer runs out or before the deadline passes. Make sure you submit your work correctly the first time!
