ALL ABOUT EDGE!

How you can support our students

Who is eligible?

✓ Undergraduate
✓ Regular stream

Students can join the program anytime, regardless of how many terms they have left. There is no penalty for not finishing.

EDGE is flexible

Milestones are designed to be flexible and work around students' schedules. There is no set stream and they can be completed in almost any order.

Students don't need to participate in EDGE every term. They are welcome to register and get oriented first, or take a term off from milestones if they have a heavy academic load.

How to support EDGE students?

Be familiar with the courses in your area that may also count for EDGE. These include a third-party partner in the course.

Encourage students to connect with their EDGE advisor to plan milestones

Refer eligible students! If you know an undergraduate regular-stream student interested in:
- preparing for job or volunteer applications
- already involved in extracurriculars on or off campus
- professional development

refer them to EDGE. Have them book an online advising appointment, or connect with our team through email.

EDGE is free!

There are zero fees for EDGE. Enrollment, PD courses, and workshops are all completely free.

Previously in co-op?

Students with previous co-op experience may be able to earn retroactive credit towards their certificate. Encourage them to connect with their EDGE advisor.

Any questions?

Feel free to contact the EDGE team anytime at edge@uwaterloo.ca
