

## WNAG

---

December 15, 2010

### *Present*

Tim Farrell: IST (Chair)

Lowell Williamson: AHS (Secretary)

Bernie Rutter: ENV

Steph Sempson: Science

Hon Tam: Engineering

Ray White: Engineering

Nevil Bromley: Arts

Naji Alamrony:

### *Profiles*

- Nevil asked about what other groups are doing for N: drives and profile space
- Arts may be moving to Windows permissions

### *Software Updates*

- Daniel not present
- Apparently software is to be ready by the end of the term, however, it will not be deployed until Reading Week in February
- Still issues with Office 2010
- Daniel wants a KMS server to handle licensing
  - Hon to build by mid-January

### *Toque*

- Not ready for useage

### *AD Consolidation*

- Currently at a stand-still
- Today's meeting has been cancelled by Martin T.
- It was suggested that the Arts Faculty domain could be considered as a test group to move an entire domain
  - Vic N. denied this request
- IST has built and joined a Windows 2008 R2 Server (Berlin) in order to run mmc

### *Other Business*

- Startup scripts running from appserver not working properly (Nevil)
- extend.dat needs to be deleted for issues with SEP 10 and Outlook not opening.

# Round Table

## Arts

- Nevil is heavily involved in committee work at the moment (Exchange and AD Consolidation)

## IST

- Has been documenting Symantec upgrades
- For instance double SEP Install
- New version of Symantec has been release on December 2
- Tim to get notified in a more timely fashion from Symantec

## Engineering

- E5 lab has been closed twice due to messy students
- New mywaterloo.ca might be up for the start of term (Ray)

## Environment

- Has been updating Symantec on clients

## AHS

- Security system for 1<sup>st</sup> floor lab has been approved
- Has been working with ENV on a RDS server
  - Server is up, running and hosting PASW currently working
  - Looking to release at the start of term

## Science

- Nothing further to report

## Math

- Nothing further to report

## Other

- N/A
