## Other Business

## Additional Notes

=====  
=== AD-CHANGE-REQUEST-2015.05 ===  
=====  
Description: Update Domain Controller Group Policies

Type of Change: (Normal (requires approval)/Standard (pre-approved)/Temporary/Emergency) Normal

Risk: (High/Medium/Low) Low

Date of Change: Once approved

Start Time: NA

End Time: NA

Impact: No impact

Possible likelihood of impact: Low/None

# Agenda

Comment/Why Change/Resolution:

Update Group Policies for the Domain Controllers to clean up access to old account access. The changes are listed below:

## Default Domain Controllers Policy

Adjust memory quotas for a process.

Remove:

nexus\SQLServer2005SQLUser\$CHIRON\$SQLEXPRESS

Allow log on locally.

Remove:

nexus\tmservd

TsInternetUser

Nexus\EC\_DomainRobots

Nexus\DCLogins

Allow log on through Terminal Services.

Remove:

Nexus\NexusAdmin

Bypass traverse checking.

Remove:

Nexus\tmersrvd

nexus\SQLServer2005SQLUser\$CHIRON\$SQLEXPRESS

Deny log on through Terminal Services.

Remove:

Nexus\EC\_DomainRobots

Nexus\NexusDCs

Log on as a batch job.

Remove:

nexus\SQLServer2005SQLUser\$CHIRON\$SQLEXPRESS

nexus\SQLServer2005SQLBrowserUser\$CHIRON\$SQLEXPRESS

nexus\NexusAdmin

Replace a process level token.

Remove:

nexus\SQLServer2005SQLUser\$CHIRON\$SQLEXPRESS

Eng. Comp. – EngSUS – DC SUSUpdate – Auto / Nofity / Manual

Set the intranet update service for detecting updates.

<https://wsus.uwaterloo.ca>

Set the intranet statistics server.

<https://wsus.uwaterloo.ca>

Rename Policy to DC WSUS Update Policy.

Has this been tested? Standard Procedure to add remove user accounts, no testing required

Rollback Plan, if required: Re-add required users until the problem is resolved.

Originator's Name: Dave Hinton

Sponsor's Name (if not manager):

Communication Plan: None, other than WNAG

# Agenda

Notice Submitted : 2015-04-10

Change Approved (YYYY-MM-DD):

=====  
=== AD-CHANGE-REQUEST-2015.06 ===  
=====

Description: New Nexus/Apex domain admin account for Anton Romantsov is requested

Type of Change: (Normal (requires approval)/Standard (pre-approved)/Temporary/Emergency) Normal

Risk: (High/Medium/Low) Low

Date of Change: Once approved

Start Time: NA

End Time: NA

Impact: No impact

Possible likelihood of impact: Low/None

Comment/Why Change/Resolution:

This request is to provide a new primary AD contact within IST-iApps team. No new impact is anticipated.

Has this been tested? Standard Procedure to add remove user accounts, no testing required

Rollback Plan, if required: Delete user.

=== AD-CHANGE-REQUEST-2015.07 ===  
=====

Description: Make All DCs in Nexus GC's

Type of Change: (Normal (requires approval)/Standard (pre-approved)/Temporary/Emergency) Normal

Risk: (High/Medium/Low) Low

Date of Change: Once approved

Start Time: NA

End Time: NA

Impact: No impact

# Agenda

Possible likelihood of impact: Low/None

Comment/Why Change/Resolution:

This request is make all DC's in Nexus Global Catalog's. After discussions with Microsoft this no longer needs to be trailed. I can give a brief presentation on how GC's work the next WNAG meeting for those who still have questions.

Has this been tested? Yes, Nexustest, and ADS both run with all GC's

Rollback Plan, if required: Remove Global Catalog from a Domain Controller
