Faculty Updates	
AHS – Lowell	• No report submitted
Arts – Nevil	• Laptop lab is receiving updates and working, to be deployed September pending construction • New version of Learnlock for Win 10 expected October
Computer Science - Steve	• Nothing to report.
Engineering – Ray	• No report submitted.

Agenda

Environment – Bernie	• Nothing to report.
IST – Dave/Anton	• Decommissioned RODC's in Nexus • Changes to Nexustest DNS setup.
IST – Manfred	• WS-IST is still working to identify the best strategy to differentiate between W10 versions. Our desire to keep clients at the CBB version hasn't changed, but MS is not making it easy to identify what that is, so may need to rely on more manual deployment procedures within SCCM to deploy. • Just about ready to deploy a UEFE-enabled W10 image. Required to support Bitlocker on laptops. • Working on better laptop procedures, and decided that we need two classes of support: the first is doing the best we can to support them like we do desktops, the second is how to deal with laptops that stay off campus for six-months-or-more. All laptops need to be registered in Nexus, regardless, so they at least get tattooed with the main security GPOs.
IST - Ravindri	• Nothing to report.
IST – Security – Mike	• Nothing to report.
Math – Jim	• Started Windows 10 upgrades in offices. • Found a solution for problem where SharePoint keeps prompting for a password. In IST-RT#572418 Math proposes that IST changes "AS – SharePoint" GPO per instructions in: https://blogs.technet.microsoft.com/office_integration__sharepoint/2014/02/24/prompted-for-username-and-password-when-opening-an-office-file-from-a-web-server Effectively, "**HKLM\System\CurrentControlSet\Services\WebClient\Parameters**" needs https://*.uwaterloo.ca smb://sharepoint.uwaterloo.ca
Science - Allan	• Nothing to report.
