Faculty Updates

AHS – Lowell

- Having issues with w10 and processing login scripts. Newly build PCs are fine but ones upgraded from 1511 forward are having issues. Open case with Microsoft currently looking at hardening to \\sysvol and \\netlogon. Thanks to Anton R. for helping diagnose and making contact with Microsoft. - Ongoing
- Looking for solutions to package in-house developed software
- Will install 1803 in student labs once available.
- Software updates happening between terms
- Looking to upgrade W7 workstations which are W10 compatible.

Agenda

Arts – Nevil

- We are updating labs to 1709 between terms
- Office windows 10 machines are upgrading to 1709 over the next two weeks
- We have had to reinstall the OneDrive app on some machines

Computer Science - Clayton

- Nothing to report.

Engineering – Ray

- No report submitted.

Environment – Bernie

- Partial student teaching lab hardware refresh next week
- All ENV labs to be rebuilt next week

IST IA – Dave / Anton

- New Business above.

IST WS – Hong

- We have a few printing problems when upgrade to Win10 1709

IST CS - Lisa

- 1709 deployed to AS areas (deadline is Monday April 23 at 11:00 p.m.)
- IWAG is putting together standard process for Win 10 update testing and phased deployments

IST ERPS – Ravindri / Linda

- Nothing to report.

IST ISS – Mike

- Nothing to report, except WatIAM has been migrated to new system.

Math – Jim

- UE-V is enabled in our Teaching environment. Roaming profiles will be disabled after another round of searching for apps that don't have UE-V defs.
- Upgraded VDI desktops to Win10 1709; Upgrading Terminal Servers to 2016 at end of month; clearing out offline files caches, enabling UE-V then upgrading remaining PCs to Win10 1709.

Science - Allan

- Nothing to report.
