# TERRITORIAL ACKNOWLEDGEMENT

The University of Waterloo acknowledges that much of our work takes place on the traditional territory of the Neutral, Anishinaabeg and Haudenosaunee peoples. Our main campus is situated on the Haldimand Tract, the land promised to the Six Nations that includes ten kilometres on each side of the Grand River.

Our active work toward reconciliation takes place across our campuses through research, learning, teaching, and community building, and is centralized within our Indigenous Initiatives Office.

## Generation Z dominates online searches for information on the post-Millennial generation

Relative U.S. search volume of generation terms (Google Trends)

Note: Google Trends data are based on weekly query volume for a given query relative to the highest weekly volume of any queries being compared within the time period and geographic region examined. The maximum relative search volume in the period is 100. The trends above are quarterly averages of weekly relative search volume and include shortened versions of search terms (for example, "Generation Z" also includes "Gen Z"). Values do not reflect the absolute number of searches.
